The Integrated Chemists of the Philippines
Is pleased to invite you to attend the Seminar-Workshop On

**Practical and Cost-Effective Solutions to
Laboratory Chemical Wastes**

18 February 2019

Century Park Hotel, Manila

www.icp.org.ph/chemweek2019

Introduction

Laboratory chemical wastes must be properly and safely managed, from its generation through handling, storage, and preparation for transport, disposal and treatment. This covers the responsibilities of the individuals generating the waste and the designated environmental services. Management of laboratory chemical wastes shall be conducted in accordance with the waste disposal policy of the company or institution generating the waste and all the applicable local, national and international regulations and laws.

This seminar-workshop will offer practical and cost-effective solutions regarding the management of toxic and hazardous wastes generated in a chemical laboratory in accordance with regulations without posing danger to people and the environment we live in.

This seminar-workshop will cover the following topics:

1. Updated Philippine Regulations on Chemical Wastes
2. Classification of Chemical Waste
3. Handling and Storage of Laboratory Chemical Wastes
4. Disposal and Treatment of Laboratory Chemical Wastes
5. Safety Practices in the Chemical Laboratory
