

# 4<sup>th</sup> National Conference of Chemical Laboratories

THEME: *New Normal, New Solutions*

**23-25 November 2020**  
9:00AM PHT (UTC+08)

LIVE 

The COVID-19 pandemic has highlighted the importance of developing robust systems in all fields, including health, agriculture, industry, education, environment, governance, and others. This pandemic has also given us the opportunity to reassess our operations so that we can work more effectively under the *new normal*. The ICP invites all chemistry professionals, including the planners and decision-makers of chemical laboratories, to attend the **4th National Conference of Chemical Laboratories (NCCL)** to discuss *new solutions* to meet the challenges of this pandemic and the post-pandemic. This will be held on 23-25 November 2020 and will be streamed via Cisco Webex.

The 4th NCCL will cover various updates on profession-related topics, such as the Career Progression and Specialization Program for the Chemistry Profession and the Accreditation of Chemical Laboratories. There will also be updates on drinking water laboratories, food safety, and environmental analysis, among others. The Board of Chemistry will be invited to provide updates from the PRC.

REGISTRATION FEES (Exclusive of VAT)	
Category	Online Rate* (by Nov. 18)
Active <sup>^</sup> ICP Member	PHP 800
Inactive / Non-ICP Member	PHP 1,500

\*Remit payment and register online by **November 18**.

<sup>^</sup>Proof of current and existing ICP membership required.

	STEP 1	STEP 2
<b>HOW TO REGISTER:</b>	Remit your respective payment to: Bank: Bank of the Philippine Islands (Branch: Loyola Katipunan) Account Name: Integrated Chemists of the Philippines Account Number: 3081-0830-95	Accomplish the online registration form at: <b><a href="http://www.icp.org.ph/event-registration">www.icp.org.ph/event-registration</a></b> <i>(Online registration is <u>until Nov. 18</u> only)</i>
